

CERTIFICATE IN
SPECIAL NEEDS
EDUCATION
(CSE)

This course helps provide learning of individuals with disadvantages in physical, behavioral, intellectual, emotional and social capacities who require additional support and adaptive teaching methods in order to participate and meet learning objectives.

Educational programmes in special needs education may follow a similar curriculum as that offered in the parallel regular education system, however they take individuals' particular needs into account by providing specific resources (e.g. specially trained personnel, equipment, or space) and modified educational content or learning objectives.

Upon completion, the care person will able to perform duties as an Educator for Special Needs.
